What you'll learn today to protect your Microsoft 365 tenant

- Required Microsoft licensing
- Secure your admins
- Review permissive default Entra settings
- Monitor sign-in logs
- Set MFA authentication methods
- Configure powerful Conditional Access policies
- Alerting admins during risk events

Brian Reilly, LiftOff

"We are so thankful we had LiftOff to help us to make the transition as smooth as possible."
IT Director, County in Florida

- For the last 15 years, Senior Microsoft 365 Engineer with **LiftOff, LLC**.
- Over two decades of experience in **technology project management**, technology training, and client development.
- Focuses **100%** on Microsoft 365 transition and training projects.
- Hundreds of Microsoft 365 migration projects for **State and Local Governments**.
- Dozens of **projects in South Carolina!**
- Masters Degree in **International Business**.
- Active **volunteer** in his community - coaches several youth sports teams.

A bit on licensing...

- Entra ID Plan 1 (~\$6.20)
 - Allows creation of most conditional access policies.
 - ALL staff need this license.
 - Purchase standalone or bundle with Microsoft G3, Microsoft F3, or EMS E3.
- Entra ID Plan 2 (~\$9.30)
 - Create "risk-based" conditional access policies.
 - Configure "risk-based" alerts.
 - ONLY ADMINS need this license.
 - Purchase standalone or bundle with Microsoft G5, or EMS E5.

This is confusing! Check with your licensing provider!

Careful...

Don't make changes today!

- Research these suggestions yourself. Microsoft has great resources!
- Create small security groups to test before a larger roll-out.
- Use REPORT ONLY mode to test impact!
