Mission

SCOR lessens the impact of disasters on the communities and citizens of South Carolina by planning and coordinating statewide **resilience, long-term recovery** and **hazard mitigation**.

What is Resilience?

The ability of communities, economies, and ecosystems to **anticipate, absorb, recover, and thrive** when presented with environmental change and natural hazards.

The diagram is a triangle with three colored sides: blue on the left labeled "Resilience", green on the right labeled "Recovery", and a light green base labeled "Mitigation". Inside the triangle is a white house icon with a palm tree in front of it.

SCOR's Work With VOADS

Coordinate with VOADs to repair and replace disaster-impacted homes.

Connect citizens with VOADs that can address unmet financial, physical, or emotional needs

Identify funding resources for volunteer and non-profit organizations

*SCOR has developed a Common Housing Operating Picture to better coordinate with VOADs who are repairing and replacing homes.
