About LiftOff

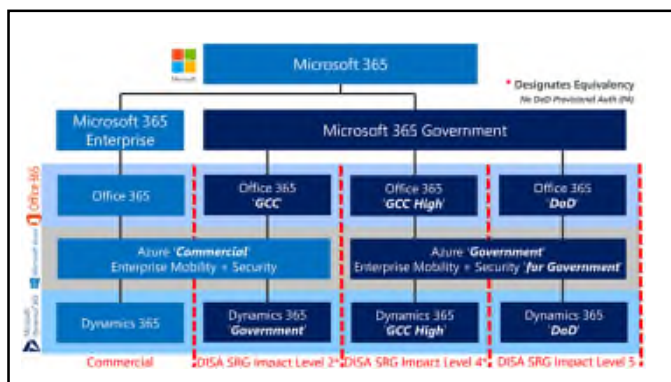

- Now in our 15th year of business
- Microsoft Licensing Partner for AOS-G (GCC and GCC HIGH)
- Over 900 organizations trust us with AOS-G cloud licensing
- Migrated over 1,000 orgs to Office 365
- Ongoing education for compliance/security best practices
- License advisors for 365 (Don't buy too much!)

LiftOff's State and Local Gov Projects

Government Community Cloud (GCC)

- Created to meet the unique and evolving requirements of State and Local Governments.
- Several ways to buy including AOSG through LiftOff
- Confirm that you are in the right place. liftoffonline.com/365check
- Only screened personnel have access.
- Features that can support customers' CJIS requirements, HIPAA and FedRAMP.
- This link explains 365 vs. Azure Gov <https://aka.ms/AA632wo>

The BIG Deployment Questions

Proper planning leads to a successful project

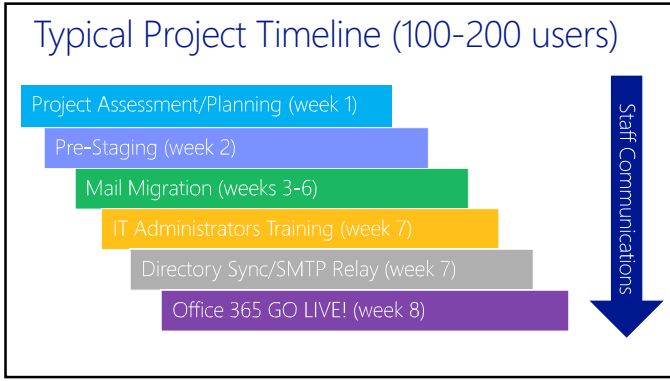

- Do I need the Gov Community Cloud (GCC)?
- What products should I buy?
- Do I need an Office upgrade?
- How do I purchase Office 365 licenses?
- Do I need a 'compliance archive' or retention for public records requests? (probably)
- Do I want to synchronize my Active Directory?
- Hybrid, Big Bang, or Staged Migration Strategy?
- How much will this cost?
- How the heck do we deploy all of this?

"I'm confident we could have done this ourselves in a year or so.

Instead, under the guidance of LiftOff, we did it in a month."

*-Joseph Mulvey, IT
Town of Newton, MA*

Project Profiles

Phased	Big Bang	Hybrid	Tenant to Tenant	"To the Rescue!"
Current System POP/IMAP	Current System Exchange 2007 and older, Google, Lotus, Novell.	Current System Healthy Exchange 2010+ system.	Current System Office 365 E Cloud moving to GCC.	Current System Office 365 migration in process but there are problems.
Approach Short-term hybrid where users are moved to the cloud one at a time, in functional groups.	Approach Cloud tenant built while old systems still functional. All users GO LIVE at same time.	Approach Old system and Office 365 work in tandem. Users migrated and cutover in batches or all at once.	Approach Build GCC tenant with onmicrosoft accounts. Bulk of work comes at GO LIVE.	Approach Discuss/diagnose issues with project. Decide to fix it or start over from scratch.
Tools Usually old-school PSTs.	Tools Paid, third-party migration tools.	Tools Free Microsoft migration tools.	Tools Paid, third-party migration tools.	Tools Depends.
Comments Takes a long time but necessary when coming from POP/IMAP.	Comments Cleanest, fastest and easiest migration path for Exchange 2007 and prior.	Comments Great option—no paid tools and no Outlook configuration.	Comments Can be very complicated. Timing of milestones critically important.	Comments Good for health checkups and security settings, etc.
