

SC Office of Resilience Long-Term Disaster Recovery

Disaster Case Management

Following a Federal Disaster Declaration, SCOR's Disaster Case Management team can accept applications for assistance with disaster-caused unmet needs.

Disaster Case Management is a process involving a partnership between a survivor and a Disaster Case Manager to develop and implement an Individual Recovery Plan.

Disaster Case Management applicants can be connected to recovery resources including:

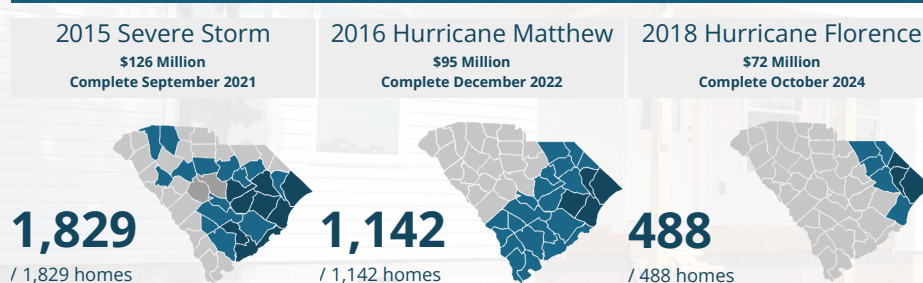

Financial Assistance, Mental Healthcare, SCOR's Housing Recovery Programs, and more!

Housing Recovery

The South Carolina Office of Resilience uses a combination of federal, state, and leverage funds to repair, replace, or rebuild damaged & destroyed homes following major natural disasters. Future grants specifically from HUD will include a set-aside amount for mitigation projects.
