## About MCAA 101

Municipal courts serve hundreds of people who enter courthouses and other facilities seeking justice on a full range of issues. Those tasked with running municipal courts must have the knowledge and training to provide fair and accurate service to each person that comes through the court system. The Municipal Court Administration of SC training courses, known as MCAA 101, provide municipal court administrators, clerks of court and other court staff with the skills critical to running and administering the duties of a municipal court. This training provides the necessary background on the court system, as well as additional topics that will assist municipal court officials with their everyday tasks.

The training is available through three sessions throughout the year, with different topics addressed at each two-day session. There is not a requirement to attend all three sessions. The training is approved by the SC Court Administration but is not eligible for continuing legal education credit, known as a CLE, or other certification hours.
